

MAXIMUM FIDELITY.

- Full Flight Simulator up to Level D (EASA, FAA, ICAO).
- Full 6 DoF electric motion and electric vibration system.
- Intuitive on-board IOS with briefing, debriefing and scenario creation functionalities.
- Direct projection dome display 240° x 80° with dual channel LED projectors.
- NVG stimulation supporting real F4949 Series and others.
- Worldwide database with customer specific high resolution insets.
- Several Level D compliant airports and more than 25.000 generic airports.
- Computer generated airborne, ground, naval and human entities.
- OSM street network with moving traffic.

MAXIMUM FLEXIBILITY.

- Wide rear cabin for mission kits.
- Roll-on/Roll-off cockpit interchange in less than one hour.

MAXIMUM CONNECTIVITY.

- HLA/DIS networking for distributed simulation.
